

# Weekly Coal Production

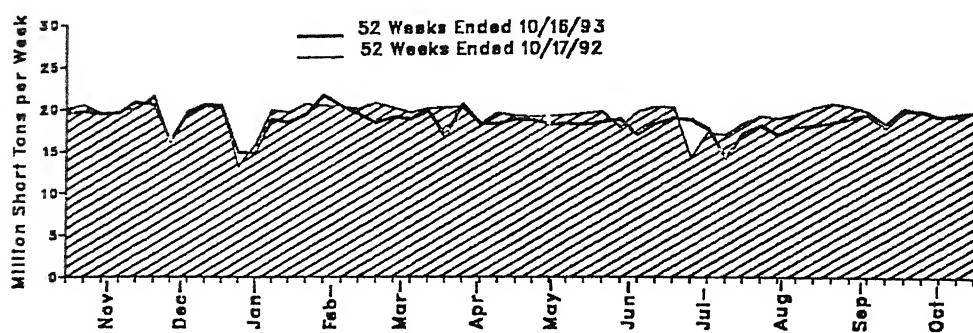

DOE/EIA-0218(93-42)  
Production for Week Ended:  
October 16, 1993

**EIA**  
Energy  
Information  
Administration

**SUMMARY**—As estimated by the Energy Information Administration (EIA) from data on railroad car loadings, U.S. coal production totaled 19 million short tons during the week ended October 16, 1993. This was 3 percent higher than in the previous week, and about the same as in the comparable week in 1992. Production east of the Mississippi River totaled 11 million short tons, and production west of the Mississippi River totaled 9 million short tons.

Contract talks between the Bituminous Coal Operators' Association and the United Mine Workers of America continued.

Railroad Cars Loaded .....	124,096	122,792	125,841	6,134,384	6,352,772	-3.4

\* For quantity data, the value of the number is less than 0.5 thousand short tons. For percentage calculations, the absolute value of the number is less than 0.05 percent.

\*\* 1993 data are preliminary. Total may not equal sum of components because of independent rounding. Bituminous and Lignite Total includes all bituminous coal, and lignite. The States in the Appalachian Region are Alabama, Eastern Kentucky, Maryland, Ohio, Pennsylvania, Tennessee, and West Virginia. The Interior Region States are Arkansas, Illinois, Indiana, Iowa, Kansas, Western Kentucky, Louisiana, Missouri, Oklahoma, Texas, and Wyoming. The Western Region States are Arizona, California, Colorado, Montana, New Mexico, North Dakota, Utah, Washington, and Wyoming.
